Subject: PFAS Places of Interest - Developing an EPA-wide combined list

Attachments: PFAS Places of Interest Data Model 10.29.2019.xlsx; PFASPlacesOfInterestDataFactSheet10.25pm.docx

In advance of our next meeting on Tuesday (3pm Eastern), I am attaching for your review an updated, draft EPA data model for managing PFAS Places of Interest data across EPA programs. We have made quite a bit of progress since our last meeting in defining the standards and coordinating with the program offices on a data collection process. In the Word doc, we have a draft schedule for completing Version 1 of the list prior to public release of the National PFAS Data Explorer. On Tuesday, we will walk through the Fact Sheet and data model so we can make one more round of changes before it is finalized.

If there are folks in your office missing from this email list, please forward this along and feel free to forward the scheduler as well. Thanks.
